

Draw Line Art Leaves

STEP 1.

Use a pencil to lightly draw a large, medium and small leaf.

The lighter the lines are the better, as they will be erased in the end.

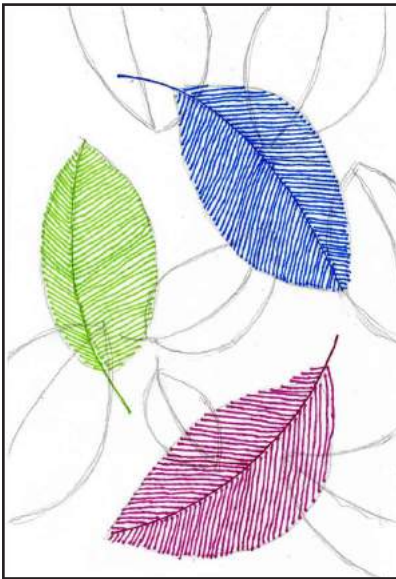

STEP 2.

With a skinny marker, trace the spine of each leaf.

Fill the inside with angled lines as shown. Try to make them close without touching.

Do NOT trace the outside edges of the leaves.

STEP 3.

Use a pencil to lightly draw more leaves that overlap a bit.

Try to keep the overlapping to a minimum so each leaf is still easily seen by itself.

STEP 4.

Trace the spine of the new leaves and fill the inside with angled lines as shown.

Do NOT trace the outside edges of the leaves.

STEP 5.

Use a good eraser to erase all the pencil lines.

OPTIONAL

Glue the drawing to larger sheet of colored paper to frame the artwork.
