

Craft Stick Owls

by Kathy Barbro of Art Projects for Kids.org

SUPPLIES

- Jumbo Craft Sticks (8" long) for large owl
<http://www.michaels.com/jumbo-craft-sticks-by-creatology/10369137.html#start=14>
- Jumbo Wood Craft Sticks (6" long) small owl
<http://www.michaels.com/creatology-jumbo-wood-craft-sticks/10334892.html?productsource=PDPZ1>
- Jumbo Wood Shapes (large circles, ovals, teardrops)
<http://www.michaels.com/creatology-jumbo-wood-shapes/10336467.html#q=jumbo+wood+shapes&start=1>
- Assorted Wood Shapes (small circles, ovals, teardrops)
<http://www.michaels.com/creatology-assorted-wood-shapes/10565911.html>
- Wood Stars (multi size)
<http://www.michaels.com/creatology-wood-stars/10206354.html?productsource=PDPZ1>
- Craft glue
- Utility scissors

STEP 1. Glue two craft sticks across five jumbo craft sticks. Let dry about 30 min. Draw a curved line along the bottom as shown. The center should be flat to keep the owl rocking.

STEP 2. Use a utility scissors to trim the top and bottom of the owl. (Note: The sticks are fairly easy to cut, but do require a sharp adult scissors. Children ages 9 and younger should have an adult help them with any cutting.)

STEP 3. Layer and glue circles and stars for the eyes. Arrange and glue teardrops for the beak and feathers. Have fun and try out different combinations. Let dry for a few minutes or until they stay firmly in place.

STEP 4. Turn owl over and glue teardrops on back for the ears and wings.

STEP 5. Turn owl over to view from the front. Adjust ears and wings if necessary.

STEP 6. Trim ends off of a jumbo craft stick, add glue to back and prop up as shown. Let dry until stick stays in place.
