

How to Make a Symmetrical Pumpkin Collage

1. Place the half orange paper on top of the full black one.

2. Draw half a face on the orange paper.

3. Cut out the half pumpkin.

4. Cut out the mouth and eye in ONE piece. Making a slit over to the eye works best.

5. Glue down the orange panel. Match the orange pumpkin corners and glue.

6. Match the orange mouth to the black and glue. Place the orange eye and glue.
