

How to Draw Mountains

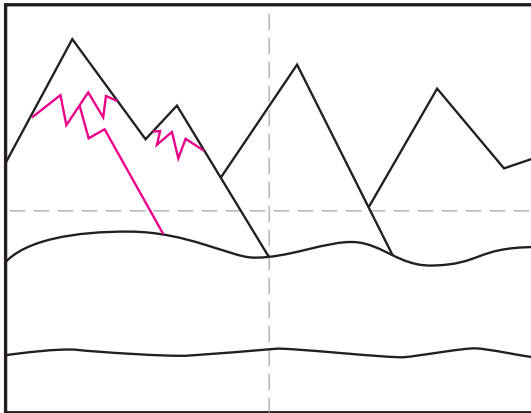

1. Draw a water line and hill line.

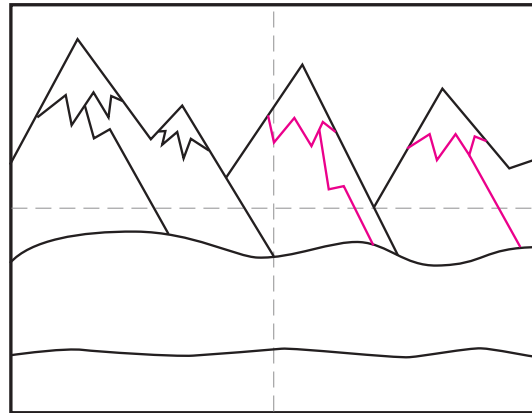

2. Add a mountain on the left.

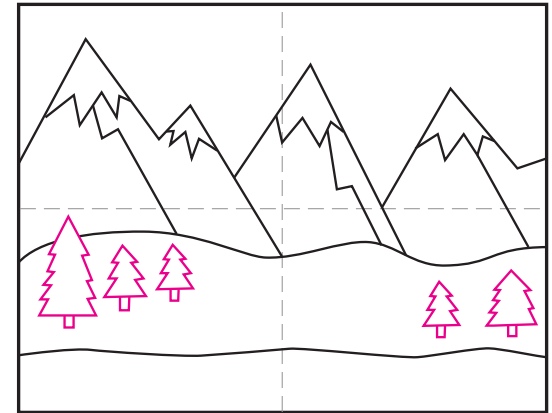

3. Draw one in the middle and one on the right.

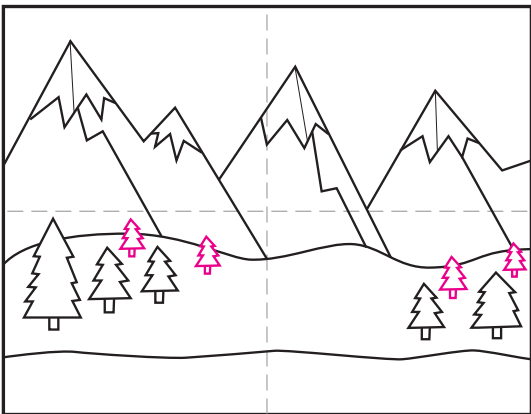

4. Add snow and mountain edge.

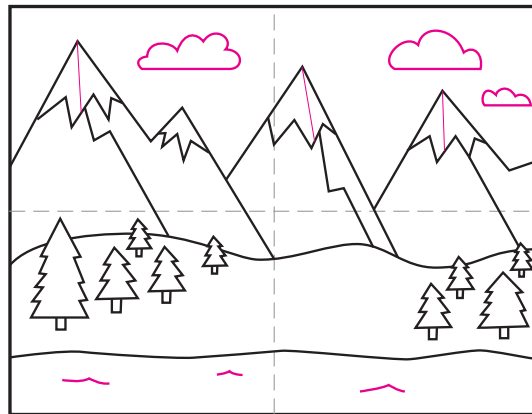

5. Finish the snow and mountain edges.

6. Draw some larger trees near the hill bottom.

7. Add smaller trees in the background.

8. Finish with shadow lines, waves and clouds.

9. Trace with a marker and color.
