

# How to Draw a Side Profile

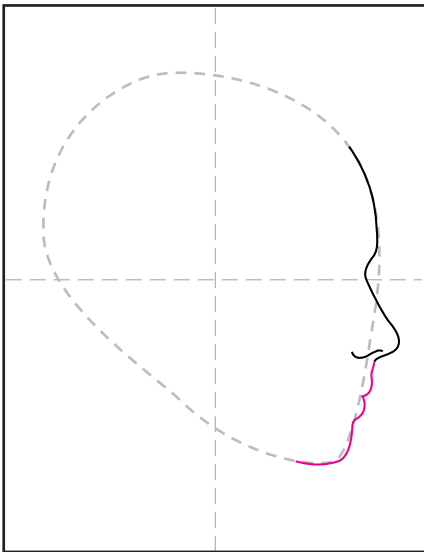

1. The most common mistake is drawing a profile in a straight line. You need a curve.

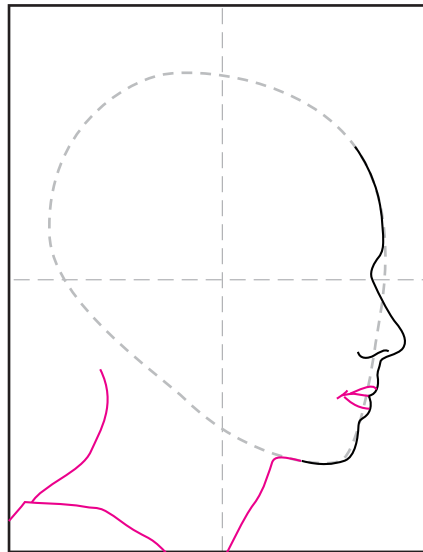

2. Fold paper to get creases to use as guides. Start with the forehead and eye.

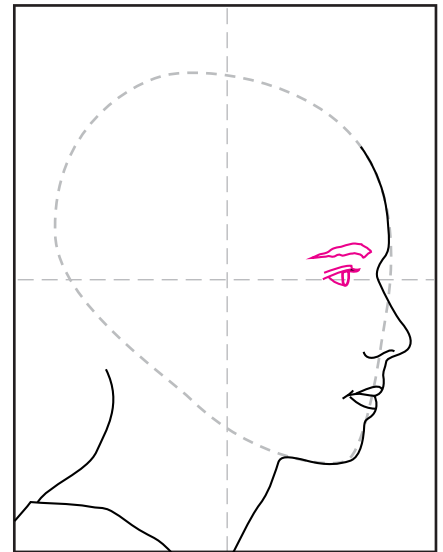

3. Add a curve for the nose.

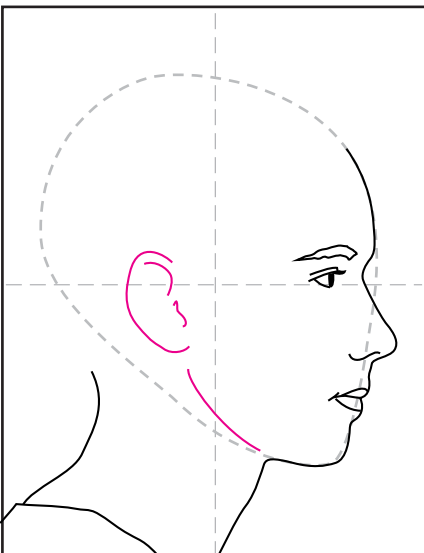

4. Continue down with the lips and chin.

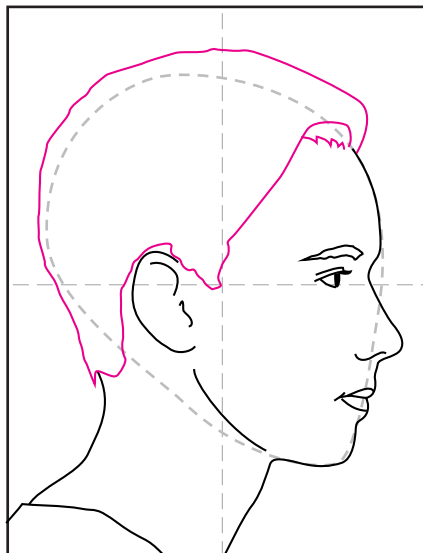

5. Add the neck and add lips.

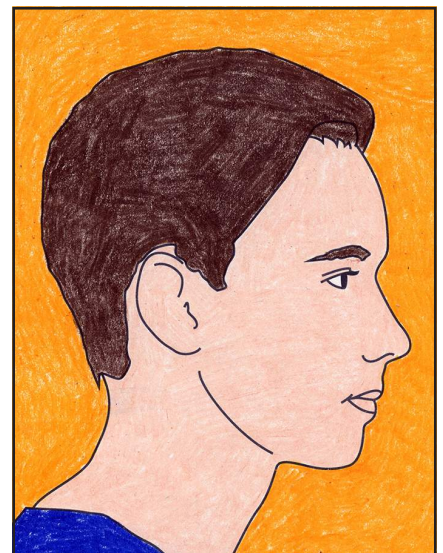

6. Add the eye and eyebrows.

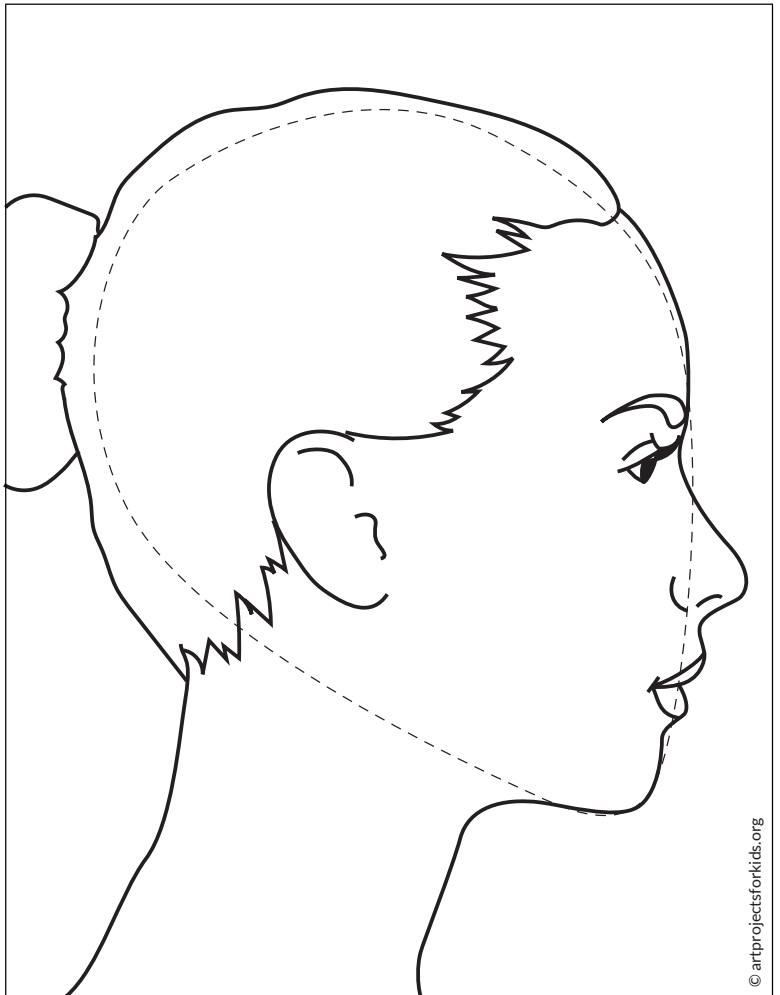

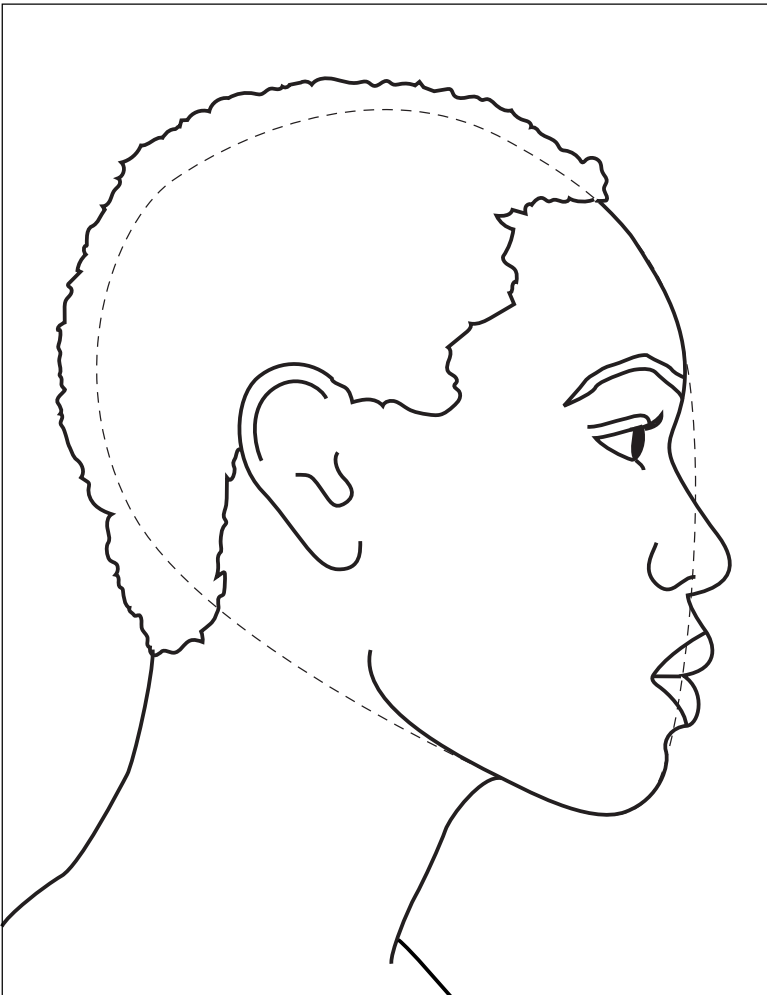

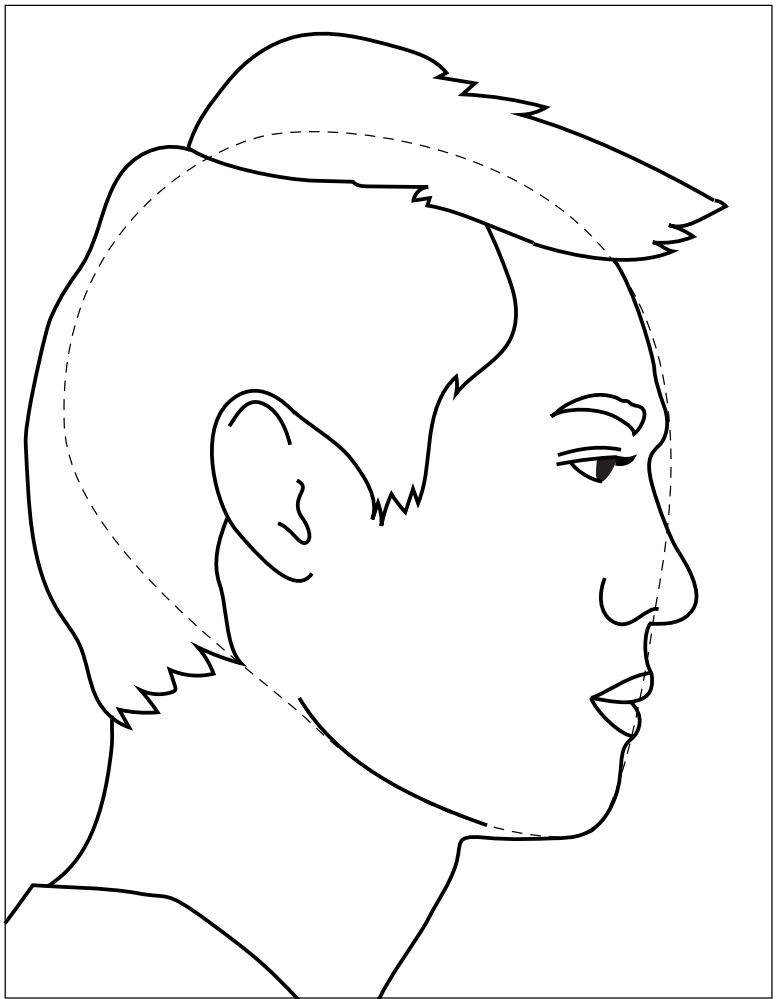

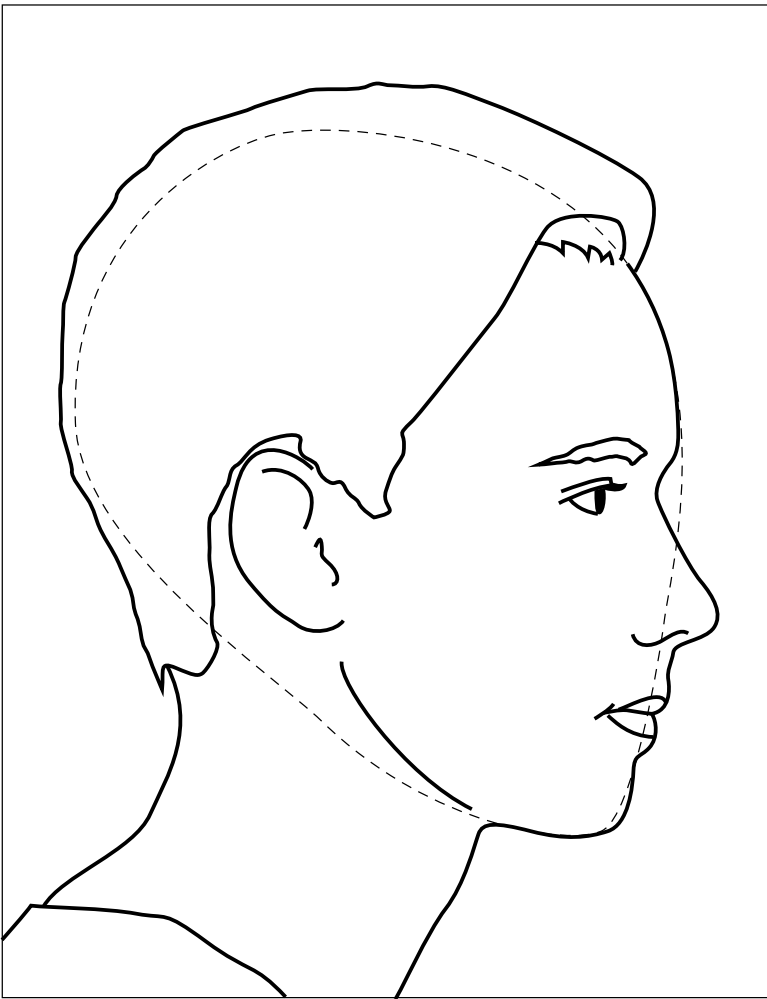

7. Add the ear and jaw line.

8. Draw the hair as needed around the head.

9. Trace with a marker and color.
