

Make a Kandinsky Tree Collage

1. Cut a wavy line on one side of a green sheet of paper that is 8.5" x 3 or 4 inches. Glue down. Cut a tree trunk with lots of branches and roots and glue down well with glue stick.

2. Cut lots of squares of colored paper in varying sizes. Cut a small round shape, glue to a larger square. Cut it out leaving a small edge all around, and repeat to make one leaf.

3. Glue the leaf to the end of any branch. Repeat and make more leaves. A variety of large, medium and small will look the most interesting.

4. Try to fill the tree, leaving spaces between each leaf. Glue them down well with a glue stick. Pressing the art under a heavy book overnight will help it lay very flat.
