

# Paint a Peter Max Style Statue of Liberty

1. Print the template on page 2 on watercolor paper. Trace the art with a fine tip permanent black marker.

2. Fill the gray areas in with marker. Use a fine tip permanent black marker for the small areas, and a thick tip black marker for the rest.

3. Use liquid watercolor paint, at full strength to paint random swatches of color. Overlap the colors just a bit and let them bleed together by themselves. This is called a wet-on-wet watercolor technique.
