

How to Draw a Husky

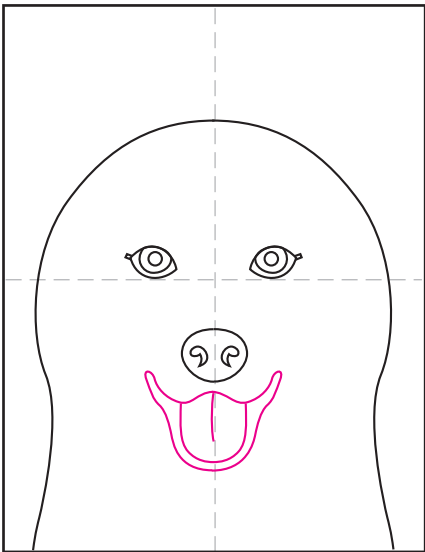

1. Draw the outside shape of the head.

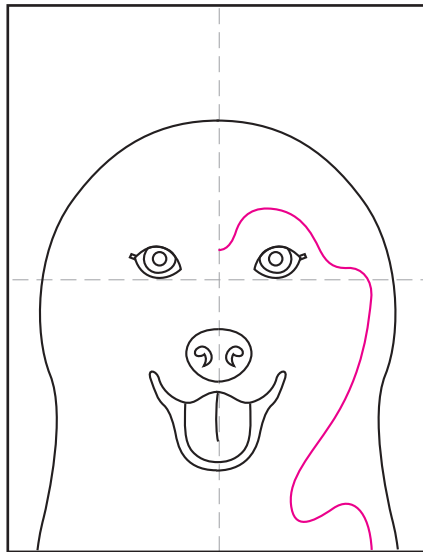

2. Add two eyes, that are about an eye width apart from each other.

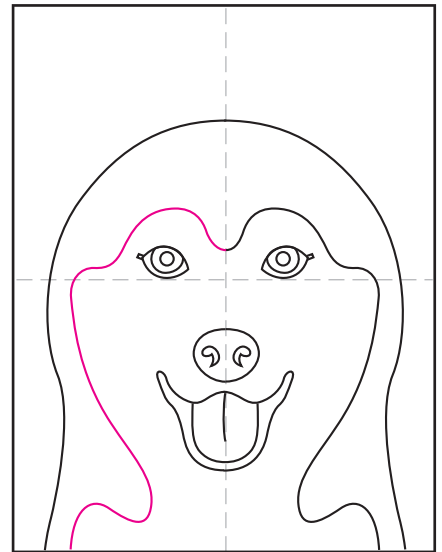

3. Draw a nose in the center.

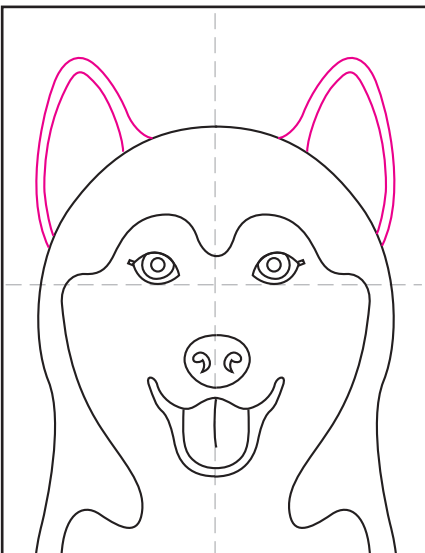

4. Add a mouth and tongue right below the nose.

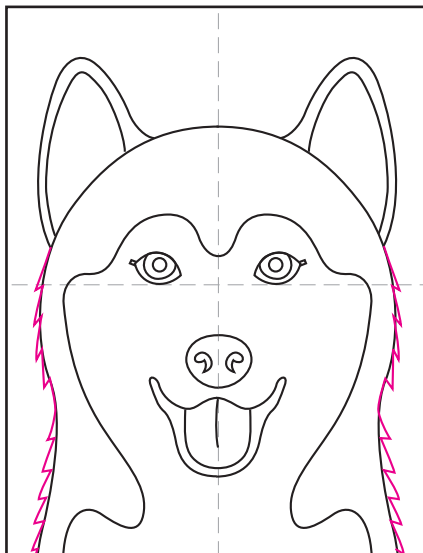

5. Start the black fur line on the right.

6. Draw a symmetrical line on the left.

7. Add two ears with lines inside.

8. Draw fuzzy fur lines on both sides.

9. Trace with a marker. Trace the eye shape again to make it thick, and color.
