

Weaving with Burlap and Yarn

1. Cut strips of burlap with a fabric scissors. Press with iron if necessary.

2. Carefully pull out ends on all four sides to make fringe. One at a time is best so they don't tangle.

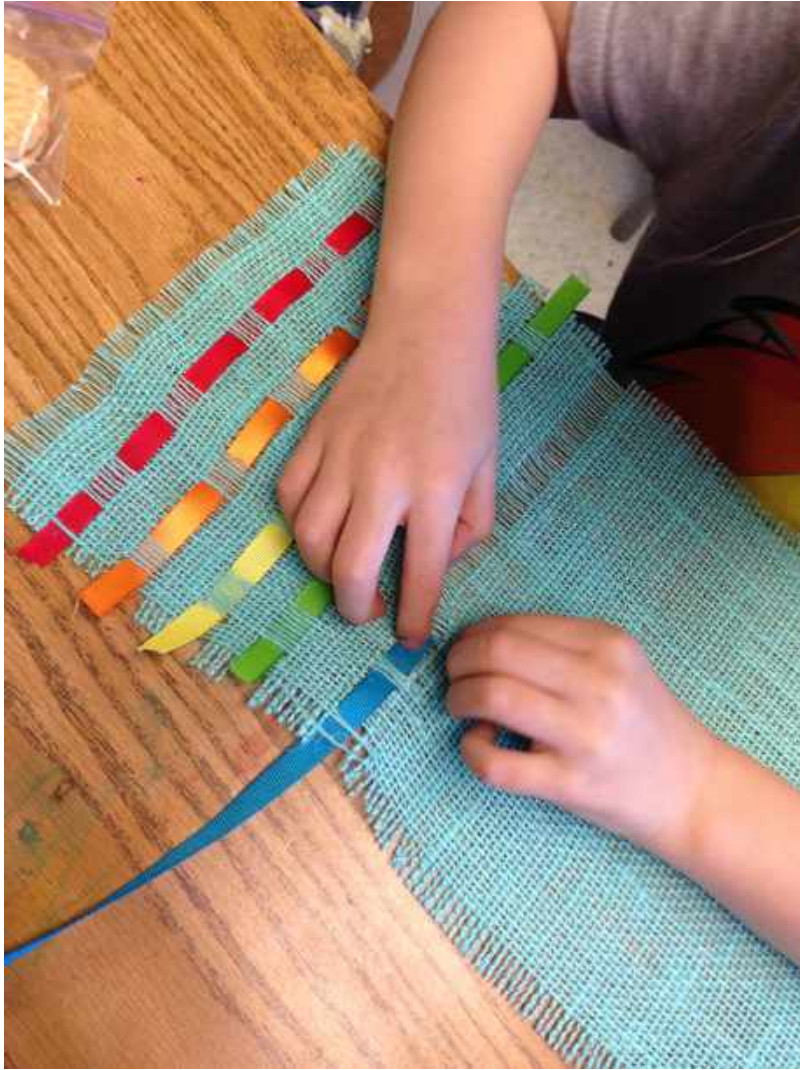

3. Carefully pull a few threads to make room for the yarn or ribbon.

4. Use a tapestry needle for yarn, or use fingers for 1/4" satin ribbon.

Weaving with Burlap and Ribbon

Be sure to pull out enough threads to make plenty of room for the ribbon.

Experiment with different colors of ribbon and burlap for different seasons.
