

Draw a Woodpecker

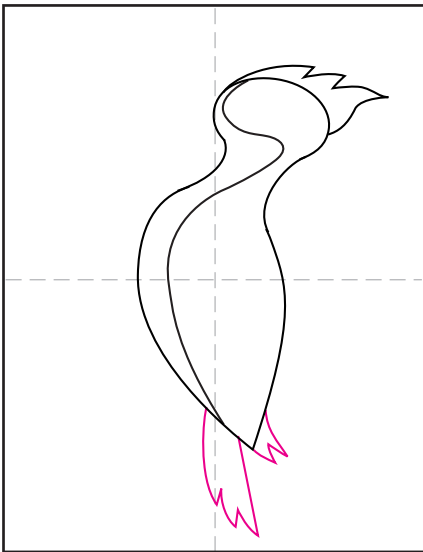

1. Draw an oval and large wing shape.

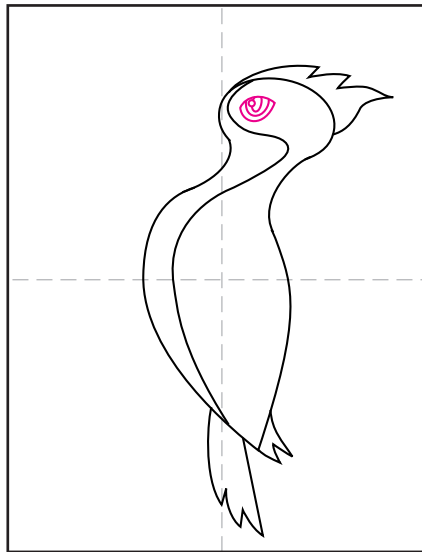

2. Connect the two with curved lines.

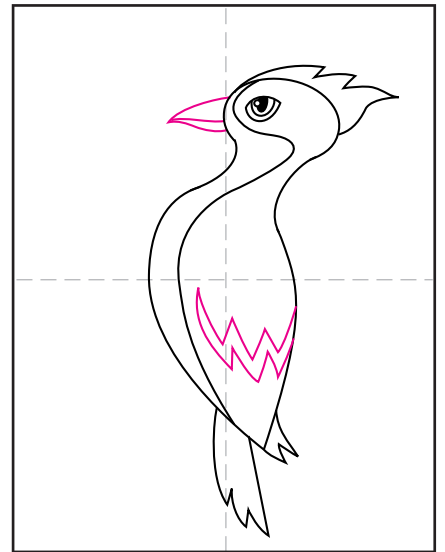

3. Erase lines, add curved body line and feathers on the top.

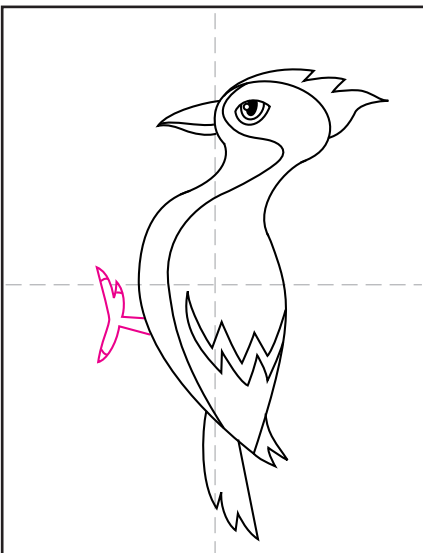

4. Add a tail and feather tips.

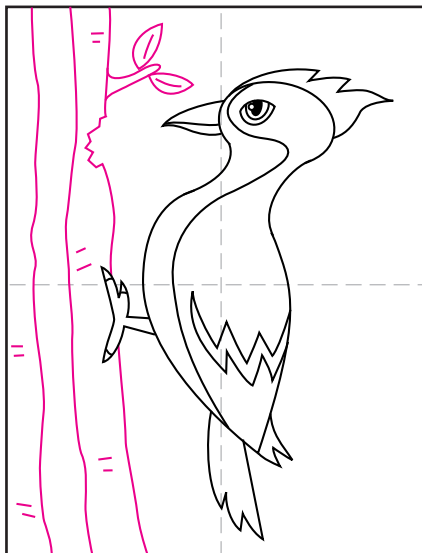

5. Draw an eye with an iris, pupil and small circle for a white spot.

6. Add a beak and pattern on the wing.

7. Draw a side view of a foot.

8. Add a tree on the left, with a bit of a hole pecked out.

9. Trace with a marker and color.
