

# How to Draw like Artemisia Gentileschi

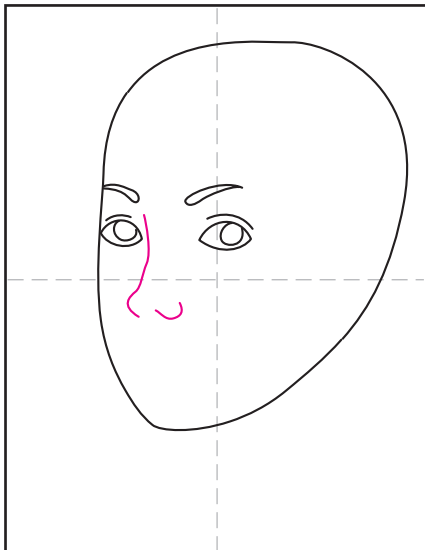

1. Lightly draw a head shape that looks like the example above.

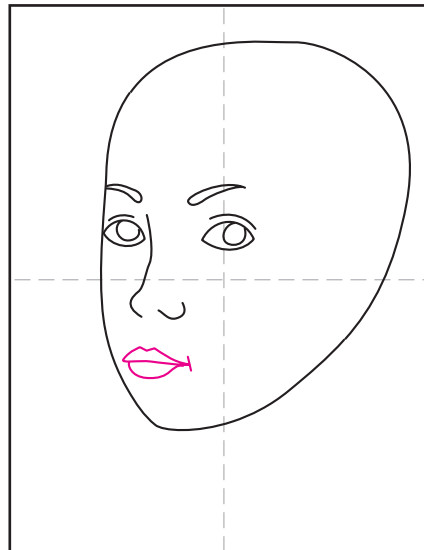

2. Draw the right eye in the middle of paper, and the other eye to the left.

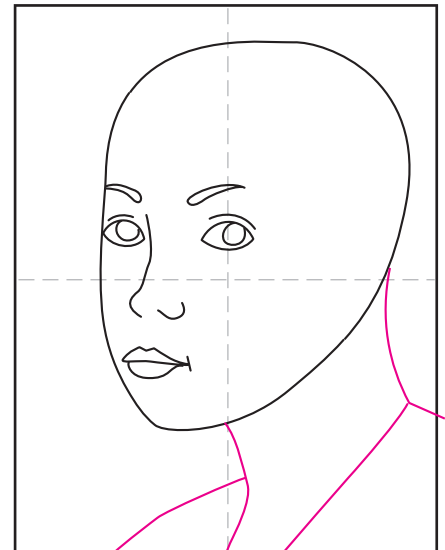

3. Add the eyelid lines and the eyebrow shapes above.

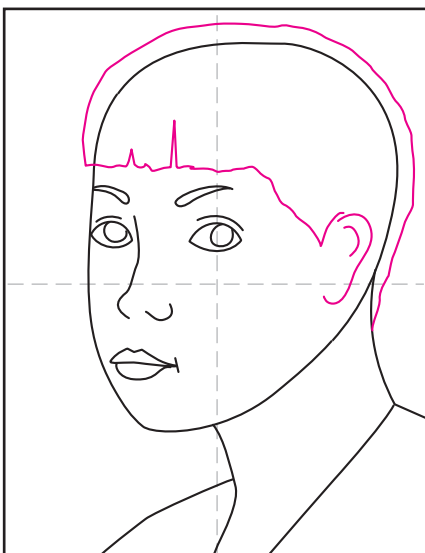

4. Draw a side view of the nose.

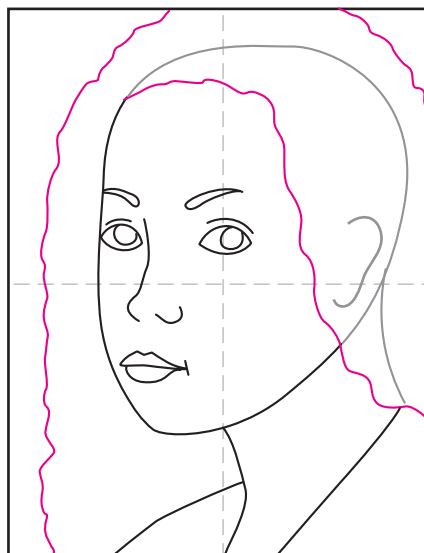

5. Add a mouth directly below.

6. Draw the neck and shoulders.

7. The drawing could be turned into a 3/4 view self portrait now, if you wish. The example above shows short hair.

8. Or you can finish the drawing to look like Artemisia, who had long hair.

9. Trace with a black marker and color. To make a bold frame, trace the lines on the picture frame too before coloring.
