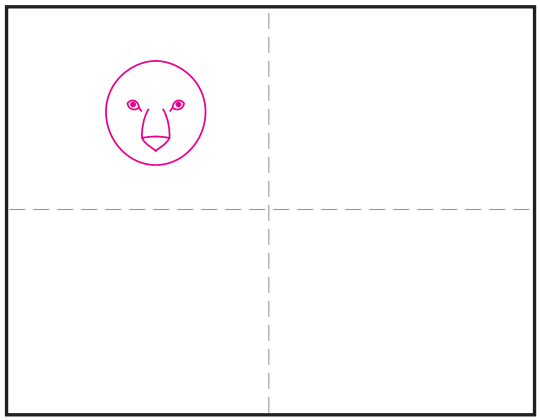
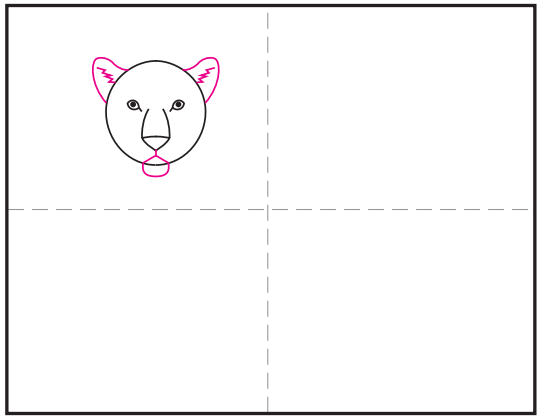
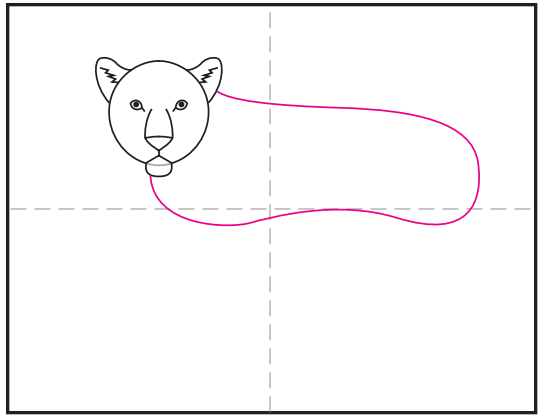
How to Draw a Leopard



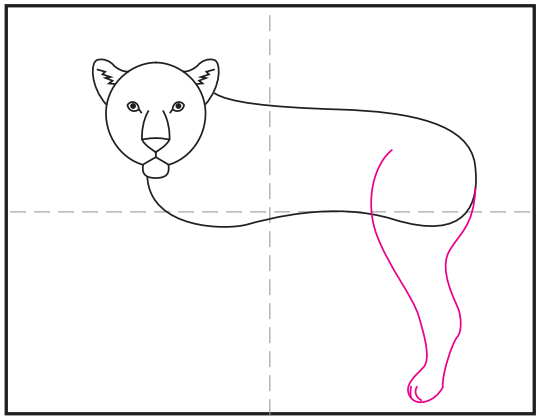
1. Draw a circle with two eyes and a nose.



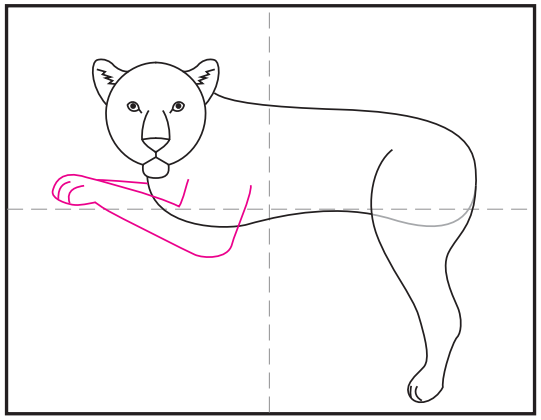
2. Add the chin and two ears.



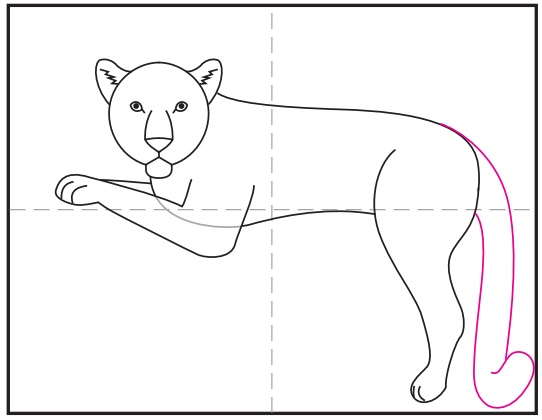
3. Erase inside chin line and add body shape.



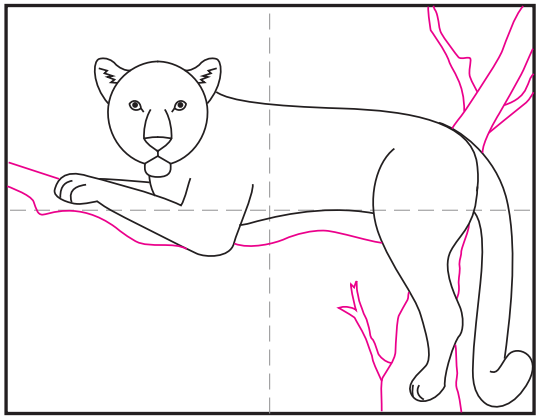
4. Add the back leg and toe lines.



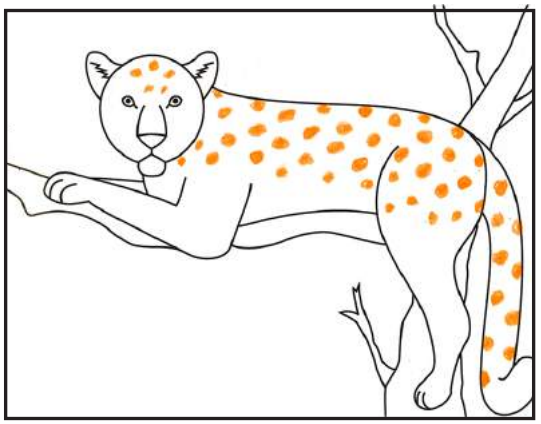
5. Erase back line and draw two arms as shown.



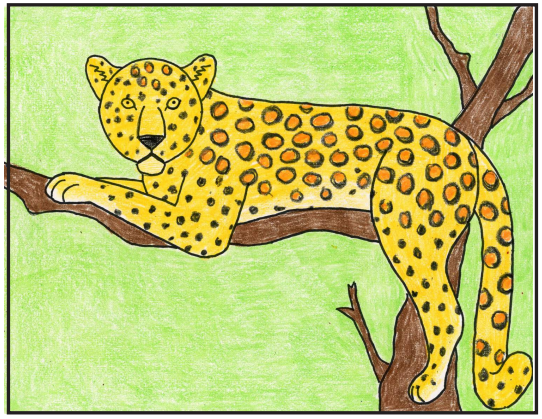
6. Erase front line and add a curved tail.



7. Draw a tree branch under and behind the leopard.



8. Trace with a black marker and draw orange spots with an orange crayon, just near the top of the body.



9. Add black rings around the orange spots. Add small black dots. Color over all with yellow crayon.
