

How to Draw a Bubble

SUPPLIES:
Watercolor paper
and water based
markers.

1. Lightly trace
round things to
make a page
full of circles.

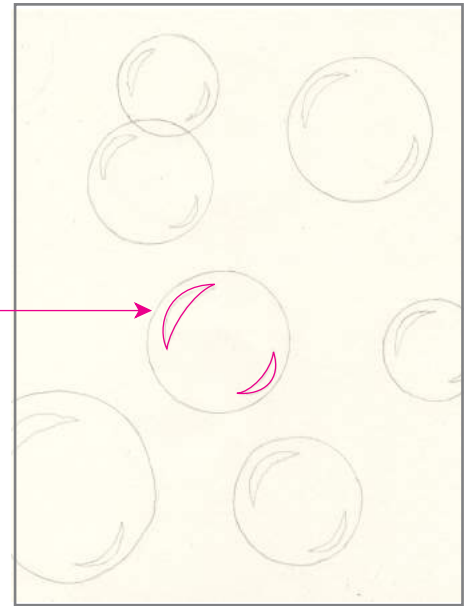

Some can go off the
page, a variety of
sizes will look best.

Work lightly so
lines may be erased
when finished.

2. Lightly draw the
highlight spots with
a pencil.

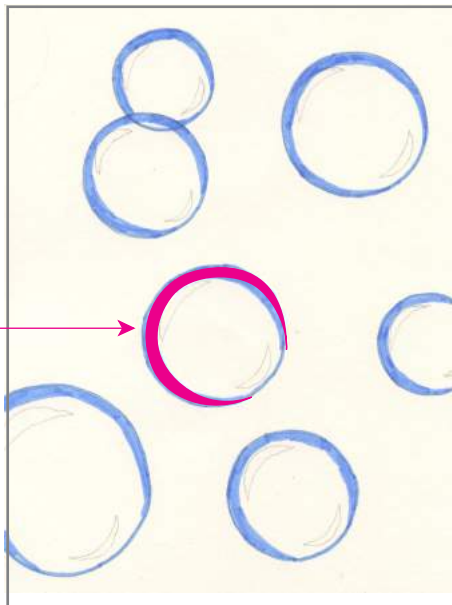

The larger one is on
the higher left, and
the smaller one on
the lower right.

3. Use a blue water
based marker to
trace the circles.

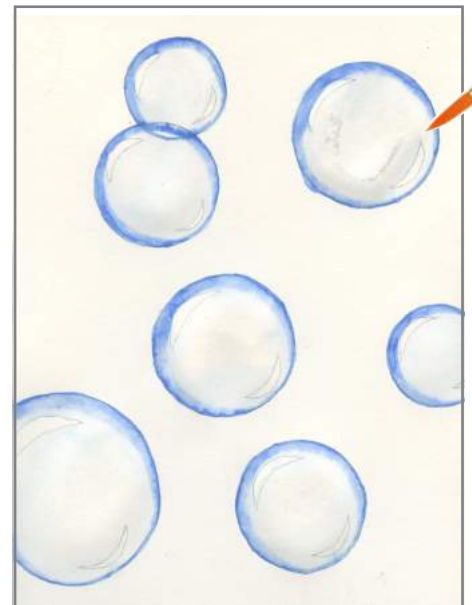

Afterwards, make
small moon shapes
as shown in the
sample, and careful-
ly fill them in really
well.

The more color that
is added, the darker
it will be when you
add water.

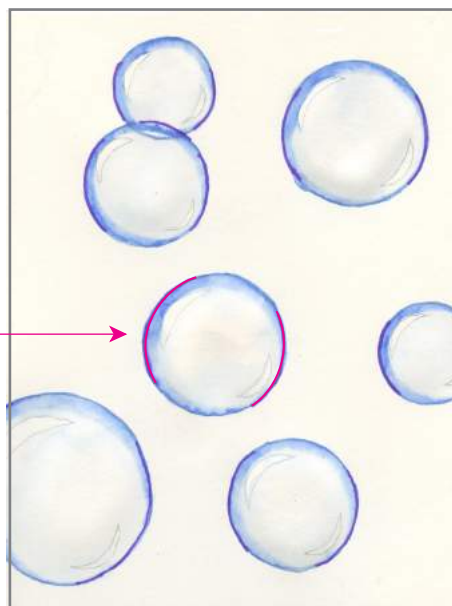

4. Use a small paint
brush to lightly
brush water over
the blue marker
color.

Spread the colored
water around the
entire bubble,
except for the
highlight spots.

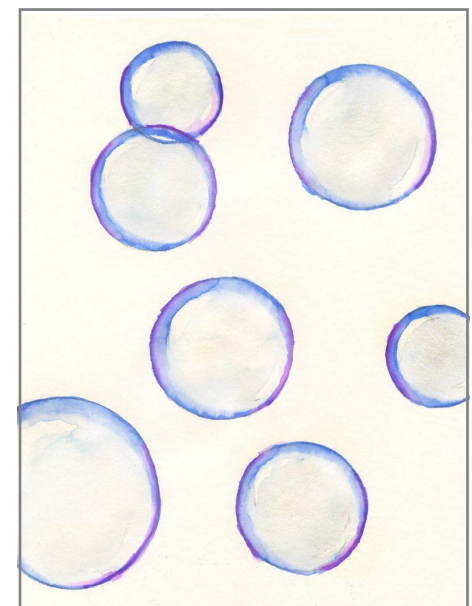

5. Use a purple
marker to add a line
on the left and on
the right.

6. Carefully apply
water to the purple
lines so they soften a
bit too.

Let dry.

Erase all the pencil
lines.
